To the Shareholders

Dear Sir or Madam,

**CONTINUING CONNECTED TRANSACTIONS
THE FURTHER 2026 ELECTRICITY AGREEMENTS
AND
NOTICE OF EXTRAORDINARY GENERAL MEETING**

A. INTRODUCTION

Reference is made to the announcement of the Company dated 30 April 2026 in relation to the entering into of the Further 2026 Electricity Agreements between the Group and GDH Energy Service.

LETTER FROM THE BOARD

Reference is also made to the announcement of the Company dated 17 December 2025 in respect of the Existing 2026 Electricity Agreements under which each of GDH Zhongyue (a wholly-owned subsidiary of the Company), GDH Food Foshan, Runhehe Food and Guanglong Food (all being non-wholly owned subsidiaries of the Company) has been purchasing electricity (through the power grid operated by Guangdong Power Grid) from GDH Energy Service during the period from 1 January 2026 to 30 June 2026.

As the Group intends to continue purchasing electricity from GDH Energy Service, in light of the upcoming expiry of the Existing 2026 Electricity Agreements, each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food has entered into the respective Further 2026 Electricity Agreement with GDH Energy Service on 30 April 2026 for a term from 1 July 2026 to 31 December 2026.

The purpose of this circular is to provide the Shareholders with, among other things, (i) details of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps; (ii) a letter from the Independent Board Committee to the Independent Shareholders in relation to the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps; (iii) a letter from the Independent Financial Adviser containing its advice to the Independent Board Committee and the Independent Shareholders; and (iv) the notice convening the EGM.

B. THE FURTHER 2026 ELECTRICITY AGREEMENTS

Save for (i) the parties to and (ii) the expected maximum volume of electricity to be supplied and purchased under each of the Further 2026 Electricity Agreements as more particularly described below, the principal terms of each of the Further 2026 Electricity Agreements are substantially the same and are summarised as follows:

Date: 30 April 2026

Parties: *Further 2026 GDH Zhongyue Electricity Agreement:*

- (i) GDH Zhongyue (as purchaser and user of electricity)
- (ii) GDH Energy Service (as supplier)

Further 2026 GDH Food Foshan Electricity Agreement:

- (i) GDH Food Foshan (as purchaser and user of electricity)
- (ii) GDH Energy Service (as supplier)

LETTER FROM THE BOARD

Further 2026 Runhehe Food Electricity Agreement:

- (i) Runhehe Food (as purchaser and user of electricity)
- (ii) GDH Energy Service (as supplier)

Further 2026 Guanglong Food Electricity Agreement:

- (i) Guanglong Food (as purchaser and user of electricity)
- (ii) GDH Energy Service (as supplier)

Term: 1 July 2026 to 31 December 2026

Expected maximum *Further 2026 GDH Zhongyue Electricity Agreement:*

volume of electricity 49,200,000 kWh

to be supplied and

purchased:

Further 2026 GDH Food Foshan Electricity Agreement:

9,000,000 kWh

Further 2026 Runhehe Food Electricity Agreement:

3,180,000 kWh

Further 2026 Guanglong Food Electricity Agreement:

1,090,000 kWh

Unit price: GDH Energy Service will supply, and each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) will purchase, electricity at the following prices *(Note 1)*:

- (i) as to 90% of the monthly consumption, at the agreed price for the standard period (being RMB0.372 per kWh) *(Note 2)* (the “**Agreed Price**”), multiplied by the coefficient corresponding to the peak, standard or off-peak period *(Note 3)* in which the relevant electricity consumption takes place;

LETTER FROM THE BOARD

- (ii) as to 8% of the monthly consumption, at a price based on the monthly weighted average consolidated tariff in the day-ahead market* (日前市場月度加權平均綜合價)^(Note 4), multiplied by a coefficient corresponding to the peak, standard or off-peak period ^(Note 3) in which the relevant electricity consumption takes place; and
- (iii) as to the remaining 2% of the monthly consumption, at a price based on the monthly medium- and long-term transaction comprehensive price* (月度中長期交易綜合價)^(Note 4), multiplied by a coefficient corresponding to the peak, standard or off-peak period ^(Note 3) in which the relevant electricity consumption takes place.

If the Agreed Price exceeds the wholesale average price (批發均價)^(Note 4) by more than 15% for a particular month, the agreed price for the standard period of that month shall be calculated at 115% of the wholesale average price (i.e. the wholesale average price multiplied by 1.15).

If the Agreed Price is lower than the wholesale average price (批發均價)^(Note 4) by more than 20% for a particular month, the agreed price for the standard period of that month shall be calculated at 80% of the wholesale average price (i.e. the wholesale average price multiplied by 0.8).

Payment terms:

The electricity fee payable by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) shall be settled with Guangdong Power Grid ^(Note 5) on a monthly basis, which shall in turn be payable by Guangdong Power Grid to GDH Energy Service after deduction of the Power Grid Fees charged by Guangdong Power Grid; the amount to be received by GDH Energy Service under the respective Further 2026 Electricity Agreements shall therefore be the remainder of the said electricity fee.

LETTER FROM THE BOARD

Pursuant to the Implementation Rules for Retail Settlement in the Guangdong Electricity Market (《廣東電力市場零售結算實施細則》) issued by Guangdong Power Exchange Centre Co., Ltd.* (廣東電力交易中心有限責任公司) (“**Guangdong Power Exchange Centre**”, a state-owned regional power exchange platform established by the PRC government), Guangdong Power Grid is the designated power grid enterprise responsible for, among others, issuing electricity fee settlement statements to market participants, settling and collecting payments of electricity fees between retail electricity suppliers and end-users, providing explanations of electricity billing to retail users, and obtaining or issuing value-added tax special invoices to other market participants within the Guangdong Province (except for Shenzhen). Given that the settlement of electricity fee by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food through Guangdong Power Grid under the Further 2026 Electricity Agreements stems from the abovementioned rules and applies to all relevant electricity market participants within the Guangdong Province, the Board considers that such settlement arrangement is conducted on normal commercial terms.

Unilateral termination: If the Agreed Price exceeds the wholesale average price (批發均價)^(Note 4) by more than 15% for a particular month, GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) may unilaterally terminate the respective Further 2026 Electricity Agreements, and such Further 2026 Electricity Agreements shall terminate with effect from the first day of the month following the exercise of the termination right by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be).

Condition precedent
^(Note 6): Each of the Further 2026 GDH Zhongyue Electricity Agreement, the Further 2026 GDH Food Foshan Electricity Agreement, the Further 2026 Runhehe Food Electricity Agreement and the Further 2026 Guanglong Food Electricity Agreement is subject to and shall become effective on the date of approval of the respective Further 2026 Electricity Agreements and the transactions contemplated thereunder by the Independent Shareholders at the EGM in compliance with the Listing Rules having been obtained. The aforementioned condition precedent cannot be waived.

LETTER FROM THE BOARD

Notes:

1. The pricing mechanism described herein is formulated in compliance with the 2026 Electricity Market Guidelines (as defined below). According to the 2026 Electricity Market Guidelines, for retail electricity agreements that employ the “fixed price + linkage price” model, no less than 10% and no more than 30% of the actual electricity consumption shall be linked to the monthly price or the spot price (being the monthly consolidated tariff in the day-ahead market), of which no less than 8% and no more than 15% of the actual electricity consumption shall be linked to the aforementioned spot price. To comply with the requirements in the 2026 Electricity Market Guidelines, (i) 90% of the electricity to be purchased by the Group will be purchased at the Agreed Price, (ii) 8% of the electricity to be purchased by the Group will be purchased at a price based on the monthly weighted average consolidated tariff in the day-ahead market, and (iii) the remaining 2% will be purchased at a price based on the monthly medium- and long-term transaction comprehensive price.
 2. The Agreed Price of RMB0.372 per kWh has been determined after arm’s length negotiation, with reference to the 2026 transaction price range (being RMB0.372 per kWh to RMB0.554 per kWh) (“**2026 Transaction Price Range**”), as specified under the 2026 Electricity Market Guidelines. In the event that Guangdong Provincial Development and Reform Commission adjusts the 2026 Transaction Price Range (“**Adjusted 2026 Transaction Price Range**”), the relevant parties to the Further 2026 Electricity Agreements may, by mutual agreement, amend or terminate the Further 2026 Electricity Agreements. If the relevant parties do not amend or terminate the Further 2026 Electricity Agreements, the agreed price shall be as follows:
 - (a) RMB0.372 per kWh, if the Agreed Price remains within the Adjusted 2026 Transaction Price Range;
 - (b) the lower limit of the Adjusted 2026 Transaction Price Range, if the Agreed Price falls below the lower limit of the Adjusted 2026 Transaction Price Range; or
 - (c) the upper limit of the Adjusted 2026 Transaction Price Range, if the Agreed Price exceeds the upper limit of the Adjusted 2026 Transaction Price Range.
- The Company is of the view that the Agreed Price (subject to adjustment in accordance with the Adjusted 2026 Transaction Price Range promulgated by Guangdong Provincial Development and Reform Commission, if any) is fair and reasonable.
3. According to the 2026 Electricity Market Guidelines, the coefficients for the peak, standard and off-peak periods are 1.53:1:0.32 for Shenzhen City and 1.7:1:0.38 for other cities in Guangdong Province. Given that the coefficients for the peak, standard and off-peak periods are determined by Guangdong Provincial Development and Reform Commission and reflect the standardized approach to pricing electricity during different periods based on market dynamics, and considering the need to comply with the relevant requirements in the 2026 Electricity Market Guidelines, the Company is of the view that the aforementioned coefficients are fair and reasonable.
 4. As published by the Guangdong Electricity Exchange Centre from time to time.

LETTER FROM THE BOARD

5. Guangdong Power Grid is a wholly-owned subsidiary of China Southern Power Grid Company Limited, which is in turn held as to (i) 51% by the State-owned Assets Supervision and Administration Commission of the State Council (國務院國有資產監督管理委員會), (ii) 25.57% by Guangdong Hengjian Investment Holdings Co., Ltd. (廣東恆健投資控股有限公司)(which is wholly-owned by the State-owned Assets Supervision and Administration Commission of the Guangdong Government (廣東省人民政府國有資產監督管理委員會)), (iii) 2.13% by Hainan Development Holdings Co., Ltd. (海南省發展控股有限公司)(which is owned as to approximately 8.64% by the Department of Finance of Hainan Province (海南省財政廳) and as to approximately 91.36% by the State-owned Assets Supervision and Administration Commission of the People's Government of Hainan Province (海南省政府國有資產監督管理委員會)), and (iv) 21.3% by China Life Insurance (Group) Company (中國人壽保險(集團)公司)(which is owned as to 90% by the Ministry of Finance of the PRC (中國財政部) and as to 10% by the National Council for Social Security Fund (全國社會保障基金理事會) of the PRC). To the best of knowledge, information and belief of the Directors, as at the Latest Practicable Date, Guangdong Power Grid is a third party independent of and not connected with the Group.
6. If the relevant condition precedent is not fulfilled within 12 months from the date of the relevant Further 2026 Electricity Agreements (or such other date as the parties may agree in writing), the relevant Further 2026 Electricity Agreements will terminate.

C. THE PROPOSED CAPS AND BASIS OF DETERMINATION

Existing Caps

The following table sets out the existing caps under the respective Existing 2026 Electricity Agreements for the purchase of electricity by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) for the period from 1 January 2026 to 30 June 2026 (the “Existing Cap(s)”):

	The Existing Caps for the period from 1 January 2026 to 30 June 2026 (RMB)
GDH Zhongyue	18,270,000
GDH Food Foshan	3,000,000
Runhehe Food	1,110,000
Guanglong Food	279,000
Total	22,659,000

Note: The utilisation rate of the Existing Caps of each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food was approximately 41.80%, 40.07%, 30.95% and 44.29%, respectively, as at 31 March 2026.

LETTER FROM THE BOARD

Historical Transaction Amounts

The following table sets out the historical amounts of fees paid by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) to GDH Energy Service under the respective 2025 Electricity Agreements with respect to the purchase of electricity for the period from 1 January 2025 to 31 December 2025 (the “**Historical Transaction Amount(s)**”):

	Historical Transaction Amounts for the period from 1 January 2025 to 31 December 2025 (RMB)
GDH Zhongyue	33,453,000
GDH Food Foshan	5,761,000
Runhehe Food	1,743,000
Guanglong Food	<u>504,000</u>
Total	<u><u>41,461,000</u></u>

Note: The actual electricity consumption of Guanglong Food for the year ended 31 December 2025 (being approximately 1,469,000 kWh) exceeded the then expected maximum volume of electricity to be purchased by Guanglong Food under the 2025 Guanglong Food Electricity Agreements (being 1,230,000 kWh). This was mainly due to the addition of several cold storage and cutting workshop in 2025, which led to higher electricity consumption of relevant equipment and, in turn, an increase in overall electricity consumption for the year. Notwithstanding the above, none of the previous caps under the 2025 Electricity Agreements and none of the Existing Caps under the Existing 2026 Electricity Agreements have been exceeded.

LETTER FROM THE BOARD

The Proposed Caps

The proposed caps (being the maximum amount of fees payable by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) to GDH Energy Service (after deducting the Power Grid Fees payable to Guangdong Power Grid) in relation to the purchase of electricity under each of the Further 2026 Electricity Agreements) for the transactions contemplated under each of the Further 2026 Electricity Agreements for the six months ending 31 December 2026 (the “**Proposed Cap(s)**”) are set out in the table below:

	Proposed Caps for the six months ending 31 December 2026 (RMB)
Further 2026 GDH Zhongyue Electricity Agreement	18,880,000
Further 2026 GDH Food Foshan Electricity Agreement	3,150,000
Further 2026 Runhehe Food Electricity Agreement	1,250,000
Further 2026 Guanglong Food Electricity Agreement	<u>429,000</u>
Total	<u><u>23,709,000</u></u>

Basis of determination of the Proposed Caps

The Proposed Caps have been determined after arm’s length negotiations between the parties to the Further 2026 Electricity Agreements, and are based on and by reference to the following factors:

- (a) the historical electricity consumption of each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for the same period in 2025 (i.e. from 1 July 2025 to 31 December 2025), of approximately 44,937,000 kWh, 8,624,000 kWh, 2,501,000 kWh and 856,000 kWh, respectively. The average monthly consumption of electricity by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food was approximately 7,273,000 kWh, 1,322,000 kWh, 404,000 kWh and 122,000 kWh, respectively, for the year ended 31 December 2025;
- (b) the Historical Transaction Amounts;

LETTER FROM THE BOARD

- (c) the expected maximum electricity consumption of each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for (a) the six months ending 30 June 2026, and (b) the six months ending 31 December 2026 are set out below, respectively.

	For the six months ending 30 June 2026	For the six months ending 31 December 2026
GDH Zhongyue	47,600,000 kWh	49,200,000 kWh
GDH Food Foshan	8,500,000 kWh	9,000,000 kWh
Runhehe Food	2,820,000 kWh	3,180,000 kWh
Guanglong Food	710,000 kWh	1,090,000 kWh

When estimating the expected maximum electricity consumption of each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for the six months ending 31 December 2026, the following factors have been taken into account:

- (i) **GDH Zhongyue:** Electricity is one of the main production costs of GDH Zhongyue's tinplate products. The estimated maximum electricity consumption for the six months ending 31 December 2026 represents an increase of approximately 9.49% over the actual electricity consumption by GDH Zhongyue for the six months ended 31 December 2025 (as stated in (a) above). As GDH Zhongyue strives to improve its products' quality from a better tinplating product mix and manufacturing processes, it is expected that the production process will lead to higher electricity consumption.
- (ii) **GDH Food Foshan:** The estimated maximum electricity consumption for the six months ending 31 December 2026 represents an increase of approximately 4.36% over the actual electricity consumption by GDH Food Foshan for the six months ended 31 December 2025 (as stated in (a) above). As GDH Food Foshan continues to expand its slaughtering business, GDH Food Foshan anticipates an increase in electricity consumption.

LETTER FROM THE BOARD

- (iii) **Runhehe Food:** The estimated maximum electricity consumption for the six months ending 31 December 2026 represents an increase of approximately 27.15% over the actual electricity consumption by Runhehe Food for the six months ended 31 December 2025 (as stated in (a) above). Runhehe Food has entered into certain contracts with major customers in relation to its slaughtering business, which are expected to result in higher utilisation of its slaughterhouse. Coupled with the addition of processing and cutting equipment, Runhehe Food anticipates an overall higher demand for electricity at its slaughterhouse.
- (iv) **Guanglong Food:** The estimated maximum electricity consumption for the six months ending 31 December 2026 represents an increase of approximately 27.34% over the actual electricity consumption by Guanglong Food for the six months ended 31 December 2025 (as stated in (a) above). The slaughter volume of Guanglong Food for 2026 is expected to increase as compared with that of last year, and the electricity consumption from processing and cutting equipment is expected to rise. Accordingly, its overall electricity consumption is expected to increase during the same period; and
- (d) the unit price under the Further 2026 Electricity Agreements. In particular, the Agreed Price (being RMB0.372 per kWh) has been determined after arm's length negotiation with reference to the 2026 Transaction Price Range as specified under the guidelines, namely, the Notice Regarding the Regular Opening of the 2026 Trading Session for the Guangdong Electricity Market* (《關於廣東電力市場2026年度交易常態化開市的通知》) issued by the Guangdong Electricity Exchange Centre on 22 October 2025, which also set out the recommended terms for the transactions in the electricity market in Guangdong Province in 2026 (the “**2026 Electricity Market Guidelines**”).

Note: The Agreed Price is lower than that under the 2025 Electricity Agreements (being RMB0.399 per kWh).

LETTER FROM THE BOARD

D. REASONS AND BENEFITS FOR ENTERING INTO THE FURTHER 2026 ELECTRICITY AGREEMENTS

The Agreed Price has been arrived at after arm's length negotiation between the parties to the Further 2026 Electricity Agreements, which has been set at the lower limit of the 2026 Transaction Price Range. The Group intends to continue the transactions under the Existing 2026 Electricity Agreements, so that each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food will be able to continue to enjoy a fair, reasonable and competitive price which will be conducive in stabilising the operating costs amid the competitive market in which they operate and supporting their daily operations.

Taking into account the above and the longstanding and satisfactory relationship between the Group and GDH Energy Service, the Directors are of the view that it would be beneficial to each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food to purchase electricity from GDH Energy Service by entering into the respective Further 2026 Electricity Agreements.

In light of the above, the Directors (including the independent non-executive Directors who have taken into account the advice of the Independent Financial Adviser) consider that the terms of the Further 2026 Electricity Agreements (including the Agreed Price), the transactions contemplated thereunder and the Proposed Caps are fair and reasonable, on normal commercial terms (or better), entered into in the ordinary and usual course of business of the Group, and are in the interest of the Company and its Shareholders as a whole.

LETTER FROM THE BOARD

E. INTERNAL CONTROL MEASURES

The Group has adopted certain internal control measures in relation to the Further 2026 Electricity Agreements to secure the Shareholders' interests. Before determining the Agreed Price, three quotations from different electricity suppliers (including GDH Energy Service) were obtained by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food, and each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food evaluated each potential electricity supplier based on the criteria such as pricing terms, payment terms and geographical coverage of electricity supply, etc. The quotations and screening process were documented and submitted to the senior management of the Group for review and final approval. The pricing mechanism is formulated in compliance with the 2026 Electricity Market Guidelines and the Company has established internal control measures (i.e. contract approval by legal teams of the Group) to ensure that the Agreed Price (and any adjustment) is determined on normal commercial terms (or better), and is fair and reasonable.

The finance department of the Company will continuously monitor, conduct monthly checking and verification of the relevant continuing connected transactions contemplated under the Further 2026 Electricity Agreements. The business department of each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food will monitor the wholesale average price (as published by the Guangdong Electricity Exchange Centre from time to time) against the Agreed Price as per the pricing mechanism. Regular checks will be conducted by the abovementioned business departments on a monthly basis to check and monitor the monthly electricity consumption and the electricity fees incurred, and then be reported to the finance department of the Company. The finance department head of the Company will then review whether the relevant continuing connected transactions are conducted in accordance with the terms of the Further 2026 Electricity Agreements, and monitor the latest utilisation rate of the relevant Proposed Caps (as well as the electricity consumption). In the event that the utilisation rate of any Proposed Cap or the expected maximum volume of electricity consumption reaches 80%, the Director(s) will be informed for considering if the relevant Proposed Cap shall be revised and, if so, the Company will further comply with relevant requirements under the Listing Rules. Moreover, the audit committee of the Board will review the continuing connected transactions contemplated under the Further 2026 Electricity Agreements to ensure the completeness and effectiveness of the internal control measures.

The Board considers that the above internal control measures adopted by the Company in respect of the Further 2026 Electricity Agreements are appropriate and that they will give sufficient assurance to the Shareholders that the transactions contemplated under the Further 2026 Electricity Agreements will be appropriately monitored by the Company.

As at the Latest Practicable Date, GDH Food Foshan is owned as to 65% by GDH Guangnan Hong Company Limited (a wholly-owned subsidiary of the Company) and as to 35% by Nanhai Investment.

To the best of the knowledge, information and belief of the Directors and having made all reasonable enquiries, save for Nanhai Investment's holding of the said 35% interest in GDH Food Foshan, as at the Latest Practicable Date, Nanhai Investment and its ultimate beneficial owner (being the State-owned Assets Supervision and Administration Commission of Nanhai District of Foshan City* (佛山市南海區國有資產監督管理局)) are third parties independent of and not connected with the Company and its connected person(s).

LETTER FROM THE BOARD

Runhehe Food

Runhehe Food is a company established in the PRC with limited liability and is principally engaged in livestock slaughtering and the operation of slaughterhouse. Runhehe Food is an indirect non-wholly owned subsidiary of the Company. It is wholly-owned by GDH Food Zhuhai, which, as at the Latest Practicable Date, is in turn held as to (i) 66% by GDH Guangnan Investment Company Limited (廣東粵海廣南投資有限公司), which is in turn wholly-owned by the Company; and (ii) 34% directly and indirectly by or for Ms. Yan Dandan (顏丹丹女士) (“**Ms. Yan**”) as beneficial owner.

To the best of the knowledge, information and belief of the Directors and having made all reasonable enquiries, and other than the shareholding interests abovementioned, as at the Latest Practicable Date, Ms. Yan is a third party independent of and not connected with the Company and its connected person(s).

Guanglong Food

Guanglong Food is a company established in the PRC with limited liability and is principally engaged in the pig slaughtering business. Guanglong Food is an indirect non-wholly owned subsidiary of the Company and is wholly owned by GDH Food Zhuhai.

Information on GDH Energy Service

GDH Energy is a company established in the PRC with limited liability and is principally engaged in the power plant operation for the provision of electricity and steam supply. As at the Latest Practicable Date, GDH Energy is owned as to: (i) 75% by Zhongshan Power (which, in turn, is owned as to 95% by GDI and as to 5% by Devon Investment Limited); and (ii) 25% by Zhongshan Xingzhong (which, in turn, is wholly-owned by the State-owned Assets Supervision and Administration Commission of Zhongshan Municipal Government* (中山市人民政府國有資產監督管理委員會)). Devon Investment Limited is an indirect wholly-owned subsidiary of Zhongshan Xingzhong.

LETTER FROM THE BOARD

To the best of the knowledge, information and belief of the Directors and having made all reasonable enquiries, GDI is a company incorporated in Hong Kong with limited liability whose shares are listed on the Main Board of the Stock Exchange. GDI and its subsidiaries are principally engaged in investment holding, water resources, property investment, department store operation, hotel ownership, operation and management, investments in energy projects, and road and bridge operation. As at the Latest Practicable Date, GDI is owned as to approximately 58.26% by GDH and is therefore a subsidiary of Guangdong Holdings and GDH. Accordingly, GDH Energy Service is an indirect non-wholly owned subsidiary of each of GDI and GDH.

G. LISTING RULES IMPLICATIONS

As at the Latest Practicable Date, GDH holds approximately 59.19% of the total number of issued Shares of the Company and thus, GDH is a substantial shareholder, hence a connected person of the Company. Further, GDH holds approximately 58.26% of the total number of issued shares of GDI, and GDH Energy Service is a non-wholly owned subsidiary of GDI (and, hence, also of GDH), therefore GDH Energy Service is an associate of GDH and thus a connected person of the Company. As GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food are all subsidiaries of the Company, the Further 2026 Electricity Agreements and the transactions contemplated thereunder constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

On the basis that the Further 2026 Electricity Agreements and the Existing 2026 Electricity Agreements are in relation to the purchase of electricity by subsidiaries of the Company from GDH Energy Service and were entered into within a 12-month period, the transactions contemplated under the Further 2026 Electricity Agreements and the Existing 2026 Electricity Agreements have been aggregated for the purpose of Chapter 14A of the Listing Rules. As the highest applicable percentage ratio in respect of the Proposed Caps set for the Further 2026 Electricity Agreements and the Existing Caps set for the Existing 2026 Electricity Agreements (on an aggregate basis) exceeds 5%, the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps are subject to the annual review, announcement, circular and Independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

Mr. Wen Yinheng abstained from voting on the Board resolutions approving the Further 2026 Electricity Agreements and the transactions contemplated thereunder due to his directorship in certain subsidiaries of Guangdong Holdings. Save as disclosed, to the best of the Directors' knowledge, information and belief having made all reasonable enquiries, no other Director had any material interest in the Further 2026 Electricity Agreements and was required to abstain from voting on the relevant Board resolutions.

LETTER FROM THE BOARD

H. EGM AND PROXY ARRANGEMENT

A notice convening the EGM to be held at the Boardroom, Basement II, Wharney Hotel, No. 57-73 Lockhart Road, Wanchai, Hong Kong on Monday, 22 June 2026 at 11:30 a.m. (or as soon thereafter following the conclusion or adjournment of the annual general meeting of the Company to be held at 11:00 a.m. on the same day and at the same place and at any adjournment thereof) is set out on pages 50 to 52 of this circular. At the EGM, ordinary resolutions will be proposed for the approval of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps.

Any Shareholder with a material interest in the Further 2026 Electricity Agreements and the transactions contemplated thereunder and its/his close associates are required to abstain from voting on the relevant proposed resolutions at the EGM. To the best knowledge of the Company, other than GDH and Mr. Tsang Hon Nam, who is a director of GDI, which respectively held 537,198,868 Shares and 300,000 Shares (representing a total of approximately 59.22% of the total number of Shares in issue of the Company) as at the Latest Practicable Date, no Shareholder is required to abstain from voting in respect of such resolutions at the EGM.

A form of proxy for use by the Shareholders at the EGM is enclosed with this circular. Whether or not you are able to attend and vote at the EGM in person, you are requested to complete the enclosed form of proxy in accordance with the instructions printed thereon and return the same to the Company's share registrar, Computershare Hong Kong Investor Services Limited, at 17M Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong as soon as possible and in any event not less than forty-eight (48) hours (excluding any part of a day that is a public holiday) before the time appointed for holding the EGM (or any adjournment thereof). Completion and return of the form of proxy will not preclude the Shareholders from attending and voting in person at the EGM (or any adjournment thereof) should you so wish and in such event, the form of proxy shall be deemed to be revoked.

Pursuant to Rule 13.39(4) of the Listing Rules, all votes of the Shareholders to be taken at the EGM shall be taken by a poll. The Company will appoint scrutineers to handle vote-taking procedures at the EGM.

The results of the poll will be published on the websites of the Stock Exchange and the Company as soon as possible after the EGM in accordance with Rule 13.39(5) of the Listing Rules.

LETTER FROM THE BOARD

I. CLOSURE OF REGISTER OF MEMBERS

For the purpose of determining Shareholders' eligibility to attend and vote at the EGM, the register of members of the Company will be closed from Tuesday, 16 June 2026 to Monday, 22 June 2026 (both days inclusive), during which period no transfers of Shares will be registered. In order to be eligible to attend and vote at the EGM, all transfer documents accompanied by the relevant share certificates must be lodged with the Company's share registrar, Computershare Hong Kong Investor Services Limited, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong no later than 4:30 p.m. on Monday, 15 June 2026.

J. RECOMMENDATION

Your attention is drawn to:

- (i) the letter from the Independent Board Committee (comprising Mr. Gerard Joseph MCMAHON, Mr. LI Kar Keung, Caspar and Dr. WONG Yau Kar, David, all being independent non-executive Directors) set out in pages 26 to 27 of this circular which contains the recommendation of the Independent Board Committee to the Independent Shareholders concerning the fairness and reasonableness of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps; and
- (ii) the letter from the Independent Financial Adviser set out on pages 28 to 43 of this circular which contains its recommendations to the Independent Board Committee and the Independent Shareholders on whether the terms of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps are fair and reasonable, on normal commercial terms (or better), entered into in the ordinary and usual course of business of the Group, and are in the interest of the Company and its Shareholders as a whole, and the principal factors and reasons taken into account by the Independent Financial Adviser in arriving at its recommendations.

Based on the reasons set out hereinabove, the Board recommends the Independent Shareholders to vote in favour of the proposed ordinary resolutions set out in the notice convening the EGM in respect of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps.

K. FURTHER INFORMATION

Your attention is drawn to the additional information set out in the appendix to this circular.

Yours faithfully,

To the Independent Shareholders

Dear Sir or Madam,

CONTINUING CONNECTED TRANSACTIONS
THE FURTHER 2026 ELECTRICITY AGREEMENTS

We refer to the circular of the Company to the Shareholders dated 29 May 2026 (the “**Circular**”), of which this letter forms part. Unless the context otherwise requires, capitalised terms used herein shall have the same meanings as defined in the Circular.

We have been appointed by the Board as the Independent Board Committee to advise you as to whether, in our opinion, (i) the terms of the Further 2026 Electricity Agreements are fair and reasonable; (ii) the Further 2026 Electricity Agreements and the transactions contemplated thereunder are entered into on normal commercial terms (or better), and in the ordinary and usual course of business of the Group; and (iii) the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps are in the interests of the Company and its Shareholders as a whole.

Altus Capital Limited has been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps.

We would like to draw your attention to the letter from the Board set out on pages 8 to 25 of the Circular which contains, among other things, information on the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps, and the letter from the Independent Financial Adviser set out on pages 28 to 43 of the Circular which contains its advice in respect of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps.

LETTER FROM THE INDEPENDENT BOARD COMMITTEE

Having considered the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps, as well as the opinion and advice of the Independent Financial Adviser contained in their letter as set out on pages 28 to 43 of the Circular, we are of the opinion that (i) the terms of the Further 2026 Electricity Agreements are fair and reasonable; (ii) the Further 2026 Electricity Agreements and the transactions contemplated thereunder are entered into on normal commercial terms (or better), and in the ordinary and usual course of business of the Group; and (iii) the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps are in the interests of the Company and its Shareholders as a whole.

Accordingly, we recommend the Independent Shareholders to vote in favour of the ordinary resolutions in respect of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps to be proposed at the EGM.

Yours faithfully,
For and on behalf of
the Independent Board Committee

Dear Sirs and Madams,

CONTINUING CONNECTED TRANSACTIONS THE FURTHER 2026 ELECTRICITY AGREEMENTS

INTRODUCTION

We refer to our appointment as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps, details of which are set out in the “Letter from the Board” contained in the circular of the Company dated 29 May 2026 (the “**Circular**”). Terms used in this letter shall have the same meanings as those defined in the Circular unless the context requires otherwise.

Reference is made to the announcement of the Company dated 17 December 2025 in relation to the Existing 2026 Electricity Agreements, pursuant to which each of GDH Zhongyue (a wholly-owned subsidiary of the Company), GDH Food Foshan, Runhehe Food and Guanglong Food (all being non-wholly owned subsidiaries of the Company) has been purchasing electricity (through the power grid operated by Guangdong Power Grid) from GDH Energy Service from 1 January 2026 to 30 June 2026.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In order to continue with such arrangements, on 30 April 2026, (i) GDH Zhongyue entered into the Further 2026 GDH Zhongyue Electricity Agreement with GDH Energy Service; (ii) GDH Food Foshan entered into the Further 2026 GDH Food Foshan Electricity Agreement with GDH Energy Service; (iii) Runhehe Food entered into the Further 2026 Runhehe Food Electricity Agreement with GDH Energy Service; and (iv) Guanglong Food entered into the Further 2026 Guanglong Food Electricity Agreement with GDH Energy Service, pursuant to which each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food agreed to purchase, and GDH Energy Service agreed to supply, electricity during the term from 1 July 2026 to 31 December 2026.

LISTING RULES IMPLICATIONS

As at the Latest Practicable Date, GDH holds approximately 59.19% of the total number of issued Shares of the Company and thus, GDH is a substantial shareholder, hence a connected person of the Company. Further, GDH holds approximately 58.26% of the total number of issued shares of GDI, and GDH Energy Service is a non-wholly owned subsidiary of GDI (and, hence, also of GDH), therefore GDH Energy Service is an associate of GDH and thus a connected person of the Company. As GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food are all subsidiaries of the Company, the Further 2026 Electricity Agreements and the transactions contemplated thereunder constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

On the basis that the Further 2026 Electricity Agreements and the Existing 2026 Electricity Agreements are in relation to the purchase of electricity by subsidiaries of the Company from GDH Energy Service and were entered into within a 12-month period, the transactions contemplated under the Further 2026 Electricity Agreements and the Existing 2026 Electricity Agreements have been aggregated for the purpose of Chapter 14A of the Listing Rules. As the highest applicable percentage ratio in respect of the Proposed Caps set for the Further 2026 Electricity Agreements and the Existing Caps set for the Existing 2026 Electricity Agreements (on an aggregate basis) exceeds 5%, the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps are subject to the annual review, announcement, circular and Independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

THE INDEPENDENT BOARD COMMITTEE

The Independent Board Committee comprising all the independent non-executive Directors, namely Mr. Gerard Joseph MCMAHON, Mr. LI Kar Keung, Caspar and Dr. WONG Yau Kar, David, has been established to advise the Independent Shareholders as to (i) whether the Further 2026 Electricity Agreements and the transactions contemplated thereunder are conducted in the Group's ordinary and usual course of business and are in the interests of the Company and the Shareholders as a whole; (ii) whether the terms of the Further 2026 Electricity Agreements and the transactions contemplated thereunder are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned; (iii) whether the Proposed Caps are fair and reasonable; and (iv) how to vote in respect of the ordinary resolutions to be proposed at the EGM approving the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps (the "**Resolutions**"), taking into account the recommendation of the Independent Financial Adviser.

THE INDEPENDENT FINANCIAL ADVISER

As the Independent Financial Adviser to the Independent Board Committee and the Independent Shareholders, our role is to give an independent opinion to the Independent Board Committee and the Independent Shareholders as to (i) whether the Further 2026 Electricity Agreements and the transactions contemplated thereunder are conducted in the Group's ordinary and usual course of business and are in the interests of the Company and the Shareholders as a whole; (ii) whether the terms of the Further 2026 Electricity Agreements and the transactions contemplated thereunder are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned; (iii) whether the Proposed Caps are fair and reasonable; and (iv) how the Independent Shareholders should vote in respect of the Resolutions.

We acted as the independent financial adviser for the Company with regard to the continuing connected transactions in relation to the purchase of electricity, details of which were set out in the circulars of the Company dated 26 April 2024 and 26 May 2025 respectively. Save for the aforesaid transactions, we have not acted as independent financial adviser or financial adviser in relation to any transactions of the Company in the last two years prior to the date of the Circular. Pursuant to Rule 13.84 of the Listing Rules, and given that remuneration for our engagement to opine on the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps is at market level and not conditional upon successful passing of the Resolutions, and that our engagement is on normal commercial terms, we are independent of the Company.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

BASIS OF OUR ADVICE

In formulating our opinion, we have reviewed, amongst others (i) the Further 2026 Electricity Agreements; (ii) the Existing 2026 Electricity Agreements; (iii) the annual report of the Company for the year ended 31 December 2025 (the “**2025 Annual Report**”); (iv) the announcement of the Company dated 17 December 2025 in relation to the Existing 2026 Electricity Agreements; and (v) other information as set out in the Circular.

We have also relied on the statements, information, opinions and representations contained or referred to in the Circular and/or provided to us by the Company, the Directors and the management of the Group (the “**Management**”). We have assumed that all the statements, information, opinions and representations contained or referred to in the Circular and/or provided to us were true, accurate and complete at the time they were made and will continue to be so up to the date of EGM. The Directors collectively and individually accept full responsibility, including particulars given in compliance with the Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in the Circular is accurate and complete in all material respects and not misleading or deceptive, and there are no other facts the omission of which would make any statement in the Circular misleading.

We have no reason to believe that any such statements, information, opinions or representations relied on by us in forming our opinion is untrue, inaccurate or misleading, nor are we aware of any material facts the omission of which would render them untrue, inaccurate or misleading.

We consider that we have been provided with, and have reviewed, sufficient information to reach an informed view and to provide a reasonable basis for our opinion. We have not, however, conducted any independent investigation into the business, financial conditions and affairs or future prospects of the Group.

PRINCIPAL FACTORS AND REASONS CONSIDERED

1. Background

1.1 Principal businesses of the Group and connected persons

The Group is principally engaged in the purchase and sales of fresh and live foodstuffs, provision of slaughtering service, manufacturing and sales of tinsplate products and property leasing.

GDH Zhongyue is principally engaged in the production and sale of tinsplate products and property leasing.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

GDH Food Foshan is principally engaged in the business of food production, food sales, livestock slaughtering, distribution and transportation services and cryogenic storage.

Runhehe Food is principally engaged in the livestock slaughtering and the operation of slaughterhouse.

Guanglong Food is principally engaged in the pig slaughtering business.

GDH Energy Service is principally engaged in sale of electricity.

Taking into account the principal businesses of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food as described above, we consider that electricity is the major source of power for their respective operations and it is within their ordinary and usual course of businesses to purchase electricity for operational use.

1.2 The previous electricity agreements

To enable GDH Zhongyue to secure stable electricity supply for its normal business operations at a fair, reasonable and competitive price, GDH Zhongyue entered into electricity agreements with GDH Energy Service since 2018 with consecutive renewals.

As announced by the Company on 15 December 2023, in view of the operational needs of GDH Food Foshan, Runhehe Food and Guanglong Food, and considering that the unit price offered by GDH Energy Service was lower than those of their then existing electricity suppliers, each of GDH Food Foshan, Runhehe Food and Guanglong Food commenced purchase of electricity from GDH Energy Service since the beginning of 2024.

As the Existing 2026 Electricity Agreements will expire on 30 June 2026, the Further 2026 Electricity Agreements represent a continuation of the existing arrangements in respect of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food's purchase of electricity from GDH Energy Service.

2. The Further 2026 Electricity Agreements

To assess the fairness and reasonableness of the terms of the Further 2026 Electricity Agreements, we have considered the followings.

2.1 Key terms of the Further 2026 Electricity Agreements

For details of the terms of the Further 2026 Electricity Agreements, please refer to the "Letter from the Board" of the Circular. As the principal terms of each of the Further 2026 Electricity Agreements are substantially the same, our analysis of their fairness and reasonableness will be of similar focus and approach.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (i) The amount of electricity transacted shall be the actual volume of electricity consumed by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food and in any event not exceeding 49,200,000 kWh, 9,000,000 kWh, 3,180,000 kWh and 1,090,000 kWh respectively for the six months ending 31 December 2026.

We have performed random sample checks as further elaborated in the paragraph headed “2.2 Internal controls” below and noted that the amount of electricity is being charged according to GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food’s actual volume of electricity consumed. Taking into account the actual electricity consumption for the year ended 31 December 2025 and the three months ended 31 March 2026 as elaborated in the paragraph headed “2.4 The Proposed Caps” below and the potential business growth, the maximum volume of electricity to be consumed by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for the six months ending 31 December 2026 provides an assurance to each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food on the continued supply of electricity, which is a key power supply for their operations. In addition, there is no obligation for GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food to use up the maximum volume of electricity as stipulated in the Further 2026 Electricity Agreements.

- (ii) Unit price of electricity transacted shall be calculated (i) as to 90% of the monthly consumption, at the agreed price for the standard period (being RMB0.372 per kWh), multiplied by the coefficient corresponding to the peak, standard or off-peak period in which the relevant electricity consumption takes place; (ii) as to 8% of the monthly consumption, at a price based on the monthly weighted average consolidated tariff in the day-ahead market (日前市場月度加權平均綜合價), multiplied by a coefficient corresponding to the peak, standard or off-peak period in which the relevant electricity consumption takes place; and (iii) as to the remaining 2% of the monthly consumption, at a price based on the monthly medium- and long-term transaction comprehensive price (月度中長期交易綜合價), multiplied by a coefficient corresponding to the peak, standard or off-peak period in which the relevant electricity consumption takes place.

We understand that the above pricing mechanism is being formulated in compliance with the guidelines issued by the relevant authorities in the PRC. Further, we understand that the Company has obtained two quotations from other electricity suppliers in the Guangdong Province, which are independent third parties, in addition to the quotation obtained from GDH Energy Service. Therefore, a total of three quotations have been obtained by the Company. We understand that the Company has selected these electricity suppliers based on their locations (i.e. in the Guangdong Province) and their capacity to supply the required volume of electricity to GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food. We consider that the quotations obtained by the Company is reasonable in assessing the fairness and reasonableness of the unit price offered by GDH Energy Service. We have reviewed all of the three quotations and noted that the unit price offered by GDH Energy Service is no less favourable to the Group than those offered by independent third parties. Therefore, we consider that the unit price is fair and reasonable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (iii) The electricity fee payable by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food (as the case may be) shall be settled with Guangdong Power Grid (being a third party independent of and not connected with the Group) on a monthly basis, which shall in turn be payable by Guangdong Power Grid to GDH Energy Service after deduction of the Power Grid Fees charged by Guangdong Power Grid. The amount to be received by GDH Energy Service under the respective Further 2026 Electricity Agreements shall therefore be the remainder of the said electricity fee.

In light of the above, (i) the fees payable are based on the actual volume of electricity consumed by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food respectively; (ii) the maximum volume of electricity to be consumed by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for the six months ending 31 December 2026 provide assurance on the continued supply of electricity, which is a key power supply for their operations; (iii) there are no obligations for GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food to use up the respective maximum volume of electricity; (iv) the unit price offered by GDH Energy Service is no less favourable to the Group than those offered by independent third parties; and (v) the fees are settled on a monthly basis first with Guangdong Power Grid, which is in line with the regulations issued by Guangdong Power Exchange Centre, we consider that the terms of the Further 2026 Electricity Agreements are on normal commercial terms and are fair and reasonable.

2.2 Internal controls

We have obtained and reviewed the Group's internal control procedures and noted that, amongst others, the finance department of the Group will conduct monthly tracking, monitoring and verification of the progress of the Group's transactions in relation to the purchase of electricity from GDH Energy Service. In this regard, as mentioned in the paragraph headed "2.1 Key terms of the Further 2026 Electricity Agreements" above, we have performed sample checks on a total of 16 monthly electricity bills on the following basis: for each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food, three monthly electricity bills are randomly selected for the year of 2025 and one monthly electricity bill is randomly selected for the year of 2026 (up to date) respectively. We have cross-checked the electricity usage as stipulated in the electricity bills with the monthly breakdown of electricity transacted with GDH Energy Service, which we understand from the Management that such data has been confirmed with GDH Energy Service on a monthly basis. We noted that the electricity usage data are in line and therefore, believe that the amount of electricity is being charged according to the respective actual volume of electricity consumed by GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

We also note that the Group has internal control procedures to obtain quotation(s) from independent electricity supplier(s) prior to entering into the electricity agreements with GDH Energy Service. In this regard, as discussed in the paragraph headed “2.1 Key terms of the Further 2026 Electricity Agreements” above, we understand that the Company has obtained two quotations from other independent electricity suppliers, in addition to the quotation obtained from GDH Energy Service (i.e. a total of three quotations have been obtained). We have obtained and reviewed the quotations and noted that the unit price offered by GDH Energy Service is no less favourable to the Group than those offered by independent third parties. In addition, the audit committee of the Board will continue to conduct review of the continuing connected transactions contemplated under the Further 2026 Electricity Agreements to ensure the completeness and effectiveness of the internal control measures of the Group.

In view of the above, we concur with the Management’s view that the Group’s internal control measures in relation to the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the monitoring of the Proposed Caps are reasonable and appropriate.

2.3 Reasons for and benefits of the Further 2026 Electricity Agreements

With reference to the paragraph headed “1.1 Principal businesses of the Group and connected persons” above, (i) GDH Zhongyue is the principal subsidiary of the Group engaging in tinplating business; and (ii) GDH Food Foshan, Runhehe Food and Guanglong Food are the principal subsidiaries of the Group engaging in fresh and live foodstuffs business.

According to the 2025 Annual Report, we note that the tinplating business and fresh and live foodstuffs business are the principal activities of the Group contributing approximately 17.7% and 82.1% to its total revenue during the year ended 31 December 2025 respectively. Considering that electricity is the vital source of power for operations for both the tinplating business and fresh and live foodstuffs business, securing the supply of electricity at a fair, reasonable and competitive price will help to control the operating costs and is beneficial to the Group’s business operations and financial performance.

Further, as mentioned in the paragraph headed “1.2 The previous electricity agreements” above, the Group has procured electricity from GDH Energy Service since 2018 with consecutive renewals. With such business relationship and proven track record in business transactions between the Group and GDH Energy Service, we note from the Management that electricity supplied by GDH Energy Service has been stable, providing reliable support for the Group’s operations at competitive prices. Therefore, in view of the benefits that can be brought to the Group as elaborated above, the continuity of the business relationship with GDH Energy Service is beneficial to the development of the Group.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In view of the above, we concur with the Management's view that the entering into of the Further 2026 Electricity Agreements are in the interests of the Company and the Shareholders as a whole.

2.4 The Proposed Caps

In general, the Proposed Caps in relation to the purchase of electricity by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food from GDH Energy Service is determined, principally, with reference to their respective estimated maximum electricity consumption (in terms of kWh). Such maximum electricity consumption amounts are included in the Existing 2026 Electricity Agreements and the Further 2026 Electricity Agreements.

(i) Historical caps

Below is a table setting out (i) the historical transaction amounts; (ii) the historical annual caps; (iii) the corresponding maximum usage in electricity; and (iv) the actual usage in electricity, for the year ended 31 December 2025 and the three months ended 31 March 2026 respectively.

	For the year ended 31 December 2025	For the three months ended 31 March 2026
<i>GDH Zhongyue</i>		
Historical transaction amount (RMB)	33,453,000	7,637,000
Historical annual cap/Existing Cap (RMB)	36,200,000	18,270,000 (for the six months ending 30 June 2026)
Utilisation rate	92.4%	41.8% <i>Note 1</i>
Actual usage of electricity (kWh)	87,273,000	21,419,000
Maximum usage of electricity (kWh)	88,000,000	47,600,000 (for the six months ending 30 June 2026)
Utilisation rate	99.2%	45.0% <i>Note 1</i>

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

	For the year ended 31 December 2025	For the three months ended 31 March 2026
<i>GDH Food Foshan</i>		
Historical transaction amount (RMB)	5,761,000	1,202,000
Historical annual cap/Existing Cap (RMB)	7,820,000	3,000,000 (for the six months ending 30 June 2026)
Utilisation rate	73.7%	40.1% <i>Note 1</i>
Actual usage of electricity (kWh)	15,863,000	3,492,000
Maximum usage of electricity (kWh)	18,820,000	8,500,000 (for the six months ending 30 June 2026)
Utilisation rate	84.3%	41.1% <i>Note 1</i>
<i>Runhehe Food</i>		
Historical transaction amount (RMB)	1,743,000	344,000
Historical annual cap/Existing Cap (RMB)	2,570,000	1,110,000 (for the six months ending 30 June 2026)
Utilisation rate	67.8%	31.0% <i>Note 1</i>
Actual usage of electricity (kWh)	4,847,000	1,010,000
Maximum usage of electricity (kWh)	6,170,000	2,820,000 (for the six months ending 30 June 2026)
Utilisation rate	78.6%	35.8% <i>Note 1</i>

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

	For the year ended 31 December 2025	For the three months ended 31 March 2026
<i>Guanglong Food</i>		
Historical transaction amount (RMB)	504,000	124,000
Historical annual cap/Existing Cap (RMB)	515,000	279,000 (for the six months ending 30 June 2026)
Utilisation rate	97.9%	44.3% <i>Note 1</i>
Actual usage of electricity (kWh)	1,469,000	370,000
Maximum usage of electricity (kWh)	1,230,000	710,000 (for the six months ending 30 June 2026)
Utilisation rate	Note 2	52.1% <i>Note 1</i>

Notes:

1. The utilisation rate for the three months ended 31 March 2026 is calculated based on (i) the actual transaction amount or actual usage of electricity (kWh) for the three months ended 31 March 2026; and divided by (ii) the Existing Cap or the maximum usage of electricity (kWh) for the six months ending 30 June 2026.
2. Guanglong Food's actual usage of electricity in terms of kWh in 2025 exceeded the corresponding maximum usage of electricity. For further details, please refer to the paragraph headed "Historical Transaction Amounts" in the "Letter from the Board" of the Circular.

As shown in the above table, for the year ended 31 December 2025, the utilisation rates of historical annual caps for each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food ranged from approximately 67.8% to 97.9%. For the three months ended 31 March 2026, the respective actual transaction amount represented approximately 31.0% to 44.3% of the Existing Caps for the six months ending 30 June 2026.

According to the 2025 Annual Report, the Group's revenue generated from the tinplating segment increased by approximately 6.0% to approximately HK\$2,154 million in 2025 as compared to 2024. In terms of production volume, the Group produced and sold around 330,000 tonnes of tinplate products in 2025, increased by 30,000 tonnes as compared to that in 2024. As the integral part of production capacity for the Group's tinplate products, GDH Zhongyue's actual electricity usage remained at relatively high level as compared to the historical annual cap.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In terms of the Group's fresh and live foodstuffs business, it recorded a nominal revenue growth of approximately 0.4% to approximately HK\$9,967 million in 2025 as compared to 2024, despite the impact of intensified regional competition and adjustment of pricing policy. In terms of live pig slaughtering volume, we note from the 2025 Annual Report that it was about 3.22 million heads in 2025, enabling the Group to rank among one of the top in terms of slaughtering volume in the Guangdong Province. Coupled with the Group's continuous expansion strategy of the slaughtering business, it is expected that each of GDH Food Foshan, Runhehe Food and Guanglong Food would continue to require substantial volume of electricity in 2026 to support the operations of their respective slaughterhouses.

(ii) *Proposed Caps*

	For the six months ending 31 December 2026
<i>GDH Zhongyue</i>	
The Proposed Cap (RMB)	18,880,000
Maximum usage of electricity (kWh)	49,200,000
<i>GDH Food Foshan</i>	
The Proposed Cap (RMB)	3,150,000
Maximum usage of electricity (kWh)	9,000,000
<i>Runhehe Food</i>	
The Proposed Cap (RMB)	1,250,000
Maximum usage of electricity (kWh)	3,180,000
<i>Guanglong Food</i>	
The Proposed Cap (RMB)	429,000
Maximum usage of electricity (kWh)	1,090,000
The Proposed Caps (RMB)	23,709,000

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

We understand from the Management that the Proposed Caps of RMB23,709,000 for the six months ending 31 December 2026 is derived based on (i) the estimated maximum volume of electricity to be consumed by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food for the six months ending 31 December 2026 (to be further discussed below); and (ii) the pricing mechanism as elaborated in the paragraph headed “2.1 Key terms of the Further 2026 Electricity Agreements” above, which we understand that such pricing mechanism is being formulated in compliance with the guidelines issued by the relevant authorities in the PRC. In this regard, we have obtained and reviewed the aforesaid guidelines and noted that the pricing mechanism adopted for calculating the Proposed Caps is in line with that as stipulated in the guidelines. For information about the aforesaid guidelines, please refer to the paragraph headed “Basis of determination of the Proposed Caps” in the “Letter from the Board” of the Circular.

With respect to the estimated maximum volume of electricity to be consumed by each of GDH Zhongyue, GDH Food Foshan, Runhehe Food and Guanglong Food, we have considered the followings:

- **GDH Zhongyue:** the total estimated maximum level of electricity to be consumed for the year ending 31 December 2026 is 96,800,000 kWh (i.e. 47,600,000 kWh + 49,200,000 kWh pursuant to the Existing 2026 GDH Zhongyue Electricity Agreement and the Further 2026 GDH Zhongyue Electricity Agreement). Such maximum level represents an increase of approximately 10.9% over the actual electricity consumption by GDH Zhongyue for the year ended 31 December 2025. We have first noted that GDH Zhongyue had nearly fully utilised the historical annual cap for 2025 as illustrated in the paragraph headed “2.4(i) Historical caps” above. In addition, based on the information provided by the Management, while we noted that GDH Zhongyue’s production volume of tinsplate products (in terms of tonnes) remained relatively stable from January to April 2026 as compared to the same period in 2025, the production volume increased by approximately 4% in 2025 as compared to 2024. We consider that such maximum level of electricity is reasonable to provide an assurance to GDH Zhongyue in light of the potential growth in tinsplating business. In this regard, we note from the 2025 Annual Report that it is the Group’s strategy to (a) enrich its tinsplating product mix; and (b) enhance its tinsplating product quality so as to achieve market expansion to enlarge customer base, which in turn may increase demand for GDH Zhongyue’s electricity consumption.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- **GDH Food Foshan:** the total estimated maximum level of electricity to be consumed for the year ending 31 December 2026 is 17,500,000 kWh (i.e. 8,500,000 kWh + 9,000,000 kWh pursuant to the Existing 2026 GDH Food Foshan Electricity Agreement and the Further 2026 GDH Food Foshan Electricity Agreement). Such maximum level represents an increase of approximately 10.3% over the actual electricity consumption by GDH Food Foshan for the year ended 31 December 2025. Taking into account (i) the Group’s substantial live pig slaughtering volume achieved in 2025, in particular, based on information provided by the Management, we noted that the live pig slaughtering volume of GDH Food Foshan increased by approximately 4% from January to April 2026 as compared to the same period in 2025; and (ii) its continuous expansion strategy of the slaughtering business as discussed in the paragraph headed “2.4(i) Historical caps” above, we consider that such level of increase is reasonable to provide an assurance to GDH Food Foshan to accommodate the potential growth in electricity demand required to support the operation of its fresh and live foodstuffs business, in particular, the slaughterhouse.
- **Runhehe Food:** the total estimated maximum level of electricity to be consumed for the year ending 31 December 2026 is 6,000,000 kWh (i.e. 2,820,000 kWh + 3,180,000 kWh pursuant to the Existing 2026 Runhehe Food Electricity Agreement and the Further 2026 Runhehe Food Electricity). Such maximum level represents an increase of approximately 23.8% over the actual electricity consumption by Runhehe Food for the year ended 31 December 2025. According to the “Letter from the Board” of the Circular, Runhehe Food has entered into certain contracts with major customers in relation to its slaughtering business, which are expected to result in higher utilisation of its slaughterhouse. In this regard, we have obtained the relevant underlying contracts from the Management and noted that these contracts were entered into around end of 2025 and/or early 2026, which is expected to increase the capacity usage of the slaughterhouse from four operating lines to six operating lines and in turn, electricity consumption. Coupled with the reasons as discussed above, we consider that such maximum level of electricity is reasonable to provide an assurance to Runhehe Food to accommodate the potential growth in electricity demand required to support the operation of its slaughterhouse.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- **Guanglong Food:** the total estimated maximum level of electricity to be consumed for the year ending 31 December 2026 is 1,800,000 kWh (i.e. 710,000 kWh + 1,090,000 kWh pursuant to the Existing 2026 Guanglong Food Electricity Agreement and the Further 2026 Guanglong Food Electricity). Such maximum level represents an increase of approximately 22.5% over the actual electricity consumption by Guanglong Food for the year ended 31 December 2025. According to the “Letter from the Board” of the Circular, the Management expected that the slaughtering volume of Guanglong Food for 2026 would increase as compared with that of last year, and the electricity consumption from processing and cutting equipment is also expected to rise. In this regard, we have obtained the daily slaughtering volume reports of Guanglong Food from the Management for the period from January to April 2026, as well as the same period in 2025 for comparison. We note that the slaughtering volume of Guanglong Food for the period from January to April 2026 represented an increase of around 15% as compared to that of the same period in 2025. To this end, we consider the Management’s expectation to be reasonable, which in turn, may increase electricity consumption. Coupled with the reasons as discussed above, as well as the fact that Guanglong Food had nearly fully utilised the historical annual cap for 2025 as illustrated in the paragraph headed “2.4(i) Historical caps” above, we consider that such maximum level of electricity is reasonable to provide an assurance to Guanglong Food to accommodate the potential growth in electricity demand required to support the operation of its slaughterhouse.

Taking into account the above, we are of the view that the Proposed Caps have been fairly and reasonably arrived at.

RECOMMENDATION

Having considered the above principal factors, we are of the view that (i) the Further 2026 Electricity Agreements and the transactions contemplated thereunder are conducted in the Group’s ordinary and usual course of business and are in the interests of the Company and the Shareholders as a whole; (ii) the terms of the Further 2026 Electricity Agreements and the transactions contemplated thereunder are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned; and (iii) the Proposed Caps have been fairly and reasonably arrived at.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Accordingly, we recommend the Independent Shareholders, as well as the Independent Board Committee to advise the Independent Shareholders, to vote in favour of the Resolutions approving the Further 2026 Electricity Agreements, the transactions contemplated thereunder and the Proposed Caps to be proposed at the EGM.

Yours faithfully,
For and on behalf of

Notes:

- (a) A shareholder entitled to attend and vote at the EGM may appoint a proxy to attend and vote in his place and such proxy needs not be a shareholder of the Company. A shareholder holding two or more shares may appoint more than one proxy.
- (b) A form of proxy is enclosed. To be valid, the form of proxy together with the power of attorney (if any) or other authority (if any) under which it is signed (or a notarially certified copy of such power or authority) must be delivered to the Company’s Share Registrar, Computershare Hong Kong Investor Services Limited, at 17M Floor, Hopewell Centre, 183 Queen’s Road East, Wanchai, Hong Kong not less than 48 hours (excluding any part of a day that is a public holiday) before the time fixed for holding the meeting or adjourned meeting. The appointment of a proxy will not prevent a shareholder from subsequently attending and voting at the meeting or any adjourned meeting if he so wishes. If a shareholder who has lodged a form of proxy attends the meeting, his form of proxy will be deemed to have been revoked.
- (c) In the case of joint shareholders, the vote of the senior who tenders a vote, whether in person, or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority will be determined by the order in which the names stand in the Company’s register of members in respect of the joint holding.
- (d) In order to qualify for attending and voting at the meeting, all transfer documents accompanied by the relevant share certificates must be lodged with the Company’s Share Registrar, Computershare Hong Kong Investor Services Limited, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen’s Road East, Wanchai, Hong Kong not later than 4:30 p.m. on Monday, 15 June 2026.
- (e) The register of members of the Company will be closed from Tuesday, 16 June 2026 to Monday, 22 June 2026 (both days inclusive), for the purpose of determining shareholders’ eligibility to attend and vote at the EGM, during which period no transfers of shares will be registered. Holders of shares of the Company whose names appear on the register of members of the Company on Monday, 22 June 2026 (i.e. the record date) are entitled to attend and vote at the EGM following completion of the registration procedures of the share transfers.

NOTICE OF EXTRAORDINARY GENERAL MEETING

- (f) Pursuant to Rule 13.39(4) of the Listing Rules, the resolutions set out in this notice will be voted by way of a poll.
- (g) If Typhoon Signal No. 8 or above, or a “black” rainstorm warning is in force in Hong Kong at 9:00 a.m. on the date of the EGM, the EGM will be automatically adjourned. The Company will post an announcement on the websites of the Company and the Stock Exchange to notify shareholders of the date, time and place of the rescheduled meeting.
- (h) No corporate gifts will be provided at the EGM.

As at the date of this notice, the Board is composed of two executive Directors, namely Mr. WANG Hui and Ms. LONG Wenfang; two non-executive Directors, namely Ms. YU Huijuan and Mr. WEN Yinheng; and three independent non-executive Directors, namely Mr. Gerard Joseph MCMAHON, Mr. LI Kar Keung, Caspar and Dr. WONG Yau Kar, David.
